

*Predicting where the best place
to have a Greek styled
restaurant in Australia.*

By James Watson

Predicting where this restaurant will be, is valuable for:

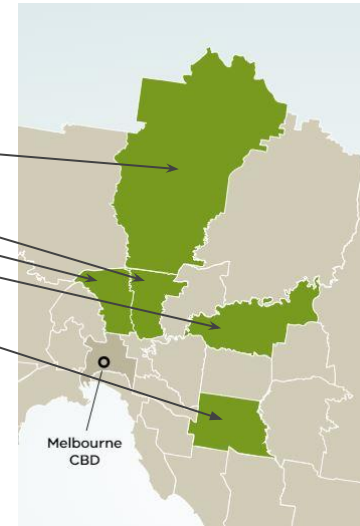

- *Greek styled Chefs*
- *Investerse*
- *People who are looking to start a business*
- *Someone who own a Greek styled restaurant and looking to expand.*

1. Intro

In this analysis I will be looking where to open it in melbourne as 44% of greek immigrants in australia live there.

The top 5 subers with a greek population:

- Whittlesea
- Darebin
- Moreland
- Manningham
- Monash

ref <https://liveinmelbourne.vic.gov.au/discover/multicultural-communities/greek>

First i will be finding what suburbs have the most greek restaurants then from there i will choose the suburb with the least greek restaurants. So there will be less competition.

I will be gathering this data through the foursquare api.

Greek restaurants in each suburb

Whittlesea

0

Monash

2

4cc7c8b3be874688ae9b80af	Orlando's Greek Delicatessen

Moreland

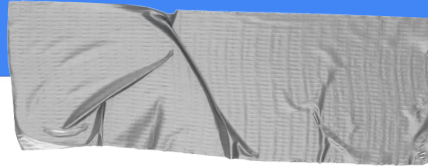

1

id	name
4db1650c5da32cf2df5a618e	Greek Orthodox Church Of Coburg And Pascoe Vale

Discussion

Although there is none in Whittlesea if the chef had a certain style he prefers cooking in e.g. Dinner, Take aways or Lunch.

They could go to another suburb that has a higher population where there is no other restaurant with that style of Greek food.

Conclusion:

With the data gathered I would predict to have a greek restaurant in the Northern Suburb Whittlesea in Melbourne Australia. Due to there being no restaurants there yet it is in the top five places in Melbourne with a high Greek population.
